VITAX SAFETY INFORMATION SHEET

IDENTIFICATION OF PREPARATION VITATURF HIGH PHOSPHATE

Packaging: 3 kg polyethylene bags.

AND COMPANY Vitax Ltd, Owen Street, Coalville LE67 3DE Tel: 01530 510060

COMPOSITION Water soluble NPK fertiliser containing 11% nitrogen, 45% phosphorus pentoxide and

11% potassium oxide.

HAZARDS IDENTIFICATION Not classified as dangerous.

FIRST AID MEASURES Accidental over exposure may result in the following symptoms:-

Eye Contact - pain and redness.

Skin Contact - irritation and redness at site of contact.

Ingestion - abdominal spasms, diarrhoea, faintness and muscular spasms. In severe

cases symptoms may result in convulsions.

Inhalation - irritation of respiratory tract.

Additional medical guidance is available to doctors from the National Poisons

Information Service.

Eye Contact - irrigate with water thoroughly.

Skin Contact - wash hands and exposed skin after use.

Ingestion - wash out mouth with water and seek medical advice.

Inhalation - remove to fresh air.

FIRE FIGHTING MEASURES Not flammable.

Extinguishing media: Extinguish with water spray or dry powder. Contain

contaminated run-off.

Exposure hazards: In intense heat, product decomposition will release

hazardous ammonia fumes.

Special protective equipment: Wear self-contained breathing apparatus in

confined spaces.

ACCIDENTAL RELEASE MEASURES Personal precautions Refer to exposure controls/personal protection and disposal

considerations for further details.

Environmental precautions: report to local water plc immediately if spillage enters drains and the Environment Agency or Scottish Environment Protection

Agency if it enters surface or ground waters

Spillages: Sweep up spillages and transfer to heavy duty plastic bags or drums

and keep safe for disposal.

HANDLING & STORAGEHandling: Do not block stack pallets.

Storage: Store in original containers, tightly closed in a secure, well ventilated,

cool but frost-free, dry area away from foodstuffs and herbicides.

EXPOSURE CONTROLS/ PERSONAL PROTECTION No specific personal protective equipment assigned. Normal good industrial

hygiene practices should be observed.

PHYSICAL & CHEMICAL PROPERTIES

Appearance pink crystalline powder

Odour none

pH not applicable

Boiling point decomposes above 130 deg C

Melting point not available

Flash point N/A
Flammability N/A
Autoflammability N/A
Explosivity N/A

Oxidizing properties N/A
Vapour pressure N/A
Relative density N/A

Solubility very soluble

Other data none

STABILITY & REACTIVITY

Stability: Stable under normal conditions.

Conditions to avoid: strong acids/bases, sodium hypochlorite, contact with copper

alloys

Hazardous decomposition products: Product decomposition under intense heat

may release toxic ammonia fumes.

TOXICOLOGICAL INFORMATION

Not classified as harmful by inhalation, ingestion or in contact with skin. Ingestion of large quantities may cause gastric disturbance. Dust may irritate eyes, nose and

respiratory tract.

To the best of our knowledge physical, chemical and toxicological properties have not

been fully investigated.

ECOLOGICAL INFORMATION

Provides nutrients essential to plant growth. Do not exceed recommended application

rates

Mobility: Ammonium ions are adsorbed by soil. Phosphates are rapidly immobilised.

Persistance: phosphates are converted to calium, iron and aluminium phosphates.

Bioaccumulation: does not bioaccumulate.

Ecotoxicity: expected to exhibit low toxicity to aquatic life.

DISPOSAL CONSIDERATIONS

Disposal route should not permit nitrate contamination of groundwater.

Dispose of waste through a reputable waste disposal contractor and in accordance with

the Environmental Protection Act 1990.

TRANSPORT INFORMATION

Not classified as dangerous for carriage.

REGULATORY INFORMATION

Not classified as dangerous for supply. Occupational Exposure Standards: For nuisance

dusts: total inhalable 10 mg/m³ (8 hr), total respirable 5 mg/m³ (8 hr).

OTHER INFORMATION

The product label provides information on the use of the product: do not use otherwise, unless you have assessed any potential hazard involved and the safety measures

required.

Prepared by VITAX LTD, for Health and Safety purposes from the best knowledge

available at the time of printing.

Revision February 2004 replaces September 1997
