

VITAX SAFETY INFORMATION SHEET

IDENTIFICATION OF PREPARATION **EASYFLO**

Packaging: 5 litre plastic containers.

AND COMPANY

Vitax Ltd, Owen Street, Coalville LE67 3DE Tel: 01530 510060

COMPOSITION

Proprietary blend of wetting agents. **No ingredients at levels classified as hazardous.**

HAZARDS IDENTIFICATION

Not classified as dangerous.

FIRST AID MEASURES

Accidental over exposure may result in the following symptoms:-

Eye Contact - expected to exhibit moderate irritation.

Skin Contact - prolonged exposure may lead to skin degreasing resulting in irritation and soreness.

Ingestion - considered to be of low toxicity.

Additional medical guidance is available to doctors from the National Poisons Information Service.

Eye Contact - rinse thoroughly with plenty of water. If irritation persists, seek medical advice.

Skin Contact - wash with water. Remove and wash contaminated clothing.

Ingestion - rinse out mouth with water and seek medical advice.

FIRE FIGHTING MEASURES

Not flammable.

Extinguishing media: Extinguish with water spray or dry powder. Contain contaminated run-off.

Exposure hazards: In intense heat, product decomposition will release hazardous nitrogen and sulphur oxide fumes.

Special protective equipment: Wear self-contained breathing apparatus in confined spaces.

ACCIDENTAL RELEASE MEASURES

Personal precautions When dealing with gross spillage wear protective gloves, boots, faceshield and overalls. Do not breathe vapour. Do not eat, drink or smoke
Environmental precautions: report to local water plc immediately if spillage enters drains and the Environment Agency or Scottish Environment Protection Agency if it enters surface or ground waters

Spillages: Soak up with absorbent material such as sand. Transfer to heavy duty plastic bags or drums and keep safe for disposal. Wash hands and exposed skin after handling.

HANDLING & STORAGE

Handling: Do not block stack pallets.

Storage: Store in original containers, tightly closed in a secure, well ventilated, cool but frost-free, dry area away from foodstuffs.

EXPOSURE CONTROLS/ PERSONAL PROTECTION

No specific exposure standards established . Normal good hygiene standards should be observed.

PHYSICAL & CHEMICAL PROPERTIES

Appearance	clear colourless liquid
Odour	negligible
pH	6 - 8
Boiling point	not determined
Melting point	not determined
Flash point	no measurable flash point
Flammability	not available
Autoflammability	not available
Explosivity	not available
Oxidizing properties	not available
Vapour pressure	not determined

Relative density	1.05 ± 0.010
Solubility	soluble in water
Other data	none

STABILITY & REACTIVITY

Stability: Stable under normal conditions.

Conditions to avoid: Mildly corrosive if left in contact with ferrous metal

Hazardous decomposition products: Product decomposition under intense heat may release toxic carbon oxide fumes.

TOXICOLOGICAL INFORMATION

Not considered toxic by skin contact. Irritation to the eye may occur. May cause nausea if ingested. No toxic effect expected. Irritation to the digestive system can occur.

ECOLOGICAL INFORMATION

Mobility: soluble in water

Persistence and biodegradability: biodegradable

Bioaccumulation: no bioaccumulation potential

Ecotoxicity: not considered hazardous

DISPOSAL CONSIDERATIONS

Dispose of waste through a reputable waste disposal contractor.

TRANSPORT INFORMATION

Not classified as dangerous for carriage.

REGULATORY INFORMATION

Not classified as dangerous for supply.

OTHER INFORMATION

The product label provides information on the use of the product: do not use otherwise, unless you have assessed any potential hazard involved and the safety measures required.

The information contained in this Safety Information Sheet is based on the best available information, including data from test results.
