Opal Green

Directions for use:

Opal Green is a surface biocide for professional use against moulds, fungi and algae that contaminate external hard surfaces such as roofs, driveways, pathways and around buildings.

Application Rates:

5 litres per 1,000m² in 50 litres of water

50 litres per Ha in 500 litres of water

Application Method:

Opal Green can be applied by brush, mop and ideally be surface spray. It is essential that all areas to be cleaned are thoroughly wetted with the product.

Opal Green works on contact and continues to work for 5 to 7 days after application.

Many of the cushion mosses can be difficult to control due to their dense growth habit so can exhibit variable susceptibility to moss treatment. In some instances a second treatment may be necessary. All surfaces may be used after the application has dried. A new solution of Opal Green should be made up daily. Opal Green does not produce any odour.

Statutory conditions relating to use:

For use only by professional operators.

The CoSHH (Control of Substances Hazardous to Health) Regulations 2002 may apply to the use of this product at work.

Avoid excessive contamination of overalls.

DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES.

Guidance on suitable respiratory protective equipment and eye protection is provided in HSE booklet HS(G)53: "The selection, use and maintenance of respiratory protective equipment - A practical guide"

KEEP AWAY FROM TREATED SURFACES UNTIL DRY - FOR OUTDOOR USE ONLY

HSE No. 9114

This product is approved under the Control of Pesticide Regulations 1986 (as amended) for use as directed.

Health and Safety

Contains: Urea hydrochloride, Alkyl (C12-C14), Dimethyl, Benzylammonium Chloride 4.5%.

Irritating to eyes, respiratory system and skin; very toxic to aquatic organisms. Avoid release to the environment.

Refer to special instructions/safety data sheets.

Keep locked up and out of reach of children.

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Avoid contact with skin and eyes.

Wear suitable clothing, gloves and eye face protection.

This material and its container must be disposed of as hazardous waste.

Safety Data Sheet available for professional user on request.

Use biocides safely. Always read the label and product information before use.
