### Application Guidelines

15-0-12 + 2% Iron may be used at any time of the year providing the turf surface is dry and rainfall is not imminent. Do not apply in frosty conditions. For best results cut grass before application.

Repeat applications may be made as often as necessary to maintain the desired effect (on average every six weeks).

### Mixing

Half fill the sprayer tank or watering can with clean water. Add the required amount of 15-0-12 + 2% Iron and mix thoroughly whilst adding the remainder of the water.

### Precautions

Wear protective gloves and face shield when handling the concentrate. When using do not eat, drink or smoke. In the event of skin or eye contact flush thoroughly with water and seek medical advice if irritation persists. Wash hands before meals and after work.

Harmful to fish. Keep in original container, tightly closed in a safe place. Empty container completely and dispose of safely.

Avoid contact with oxidising agents. Avoid contact with aluminium, mild steel and brass. Keep out of reach of children.
