

DIRECTIONS FOR USE

Ranger is a professional biocide for use on external hard surfaces, including: roofs, driveways, pavements, concrete, around buildings and on artificial sports surfaces such as tennis courts to control moulds, fungi and algae.

Ranger is ideally applied as a spray. It can also be applied by brush or mop. It is essential that all areas to be cleaned are thoroughly wetted with the product. **Ranger** works on contact and continues to work for 5 to 7 days after application. In some instances a second treatment may be necessary. All surfaces may be used after the application has dried.

A new solution of Ranger should be made up daily.

Statutory conditions relating to use

FOR USE ONLY BY PROFESSIONAL OPERATORS. FOR USE ONLY AS A SURFACE BIOCIDE

Application rate:

Normal Use	Light Use
1 litre Ranger in 20 litres of water will cover up to 100m ²	1 litre Ranger in 40 litres of water will cover up to 200m ²
