Spring & Summer

36-0-12

2% Sulphur + 1% Magnesium

A traditional start to the season with added sulphur for repeated applications. Apply as soon as grass starts growing and soil temperatures have reached 5°C. Also useful as a mid-season booster.

Spring and Summer is a blend of Nitrogen and Potash Sources with added Sulphur and Magnesium.

Ideal as a spring starter and mid season nutrient booster
 Concentrated unique gel formulation
 Easy storage and reduced packaging
 Formulated specifically for fine turf
