* Free points are added once all products purchased.

Benefit from better turf

Turf REWARDS

‘The Fortnightly’

- Maintains sward density, colour and quality without flushes of growth
- Optimises soil moisture management
- Designed to minimise turf stress
- Low Nitrogen inputs

Products

Vitalnova Stressbuster

Fully loaded liquid formulation to maintain turf health, colour, quality and stress tolerance whilst also conditioning the soil.

CONTAINS

- 7% Nitrogen for colour density and growth
- 1% Amino Acid for foliar uptake in times of stress
- 2% Fe for immediate colour response
- 30% Molasses to activate soil microbiology
- 10% Surfactant for efficient uptake and response

Primo Maxx II

Primo Maxx II is the ultimate growth regulator for the improvement of turf performance. Primo Maxx II increases sward density and root mass, reduces mowing frequency by up to 50%, enhances turf colour, appearance, strength and resilience and improves stress tolerance.

Qualibra

Qualibra is a wetting and water conservation agent that has been developed to help in the management of water in turfgrass root zones, and to help prevent dry patch (localised dry spot).

50 POINTS
INSTEAD OF 35

Ryder

Ryder is a new turf pigment technology that protects turf from harmful UV rays and excessive light, delivering a consistent natural green colour. Apply as a programme to build colour and prior to periods of stress to maintain appearance.

Tank-mix Application Rates

Vitalnova Stressbuster:	20 L/ha
Ryder:	0.5 L/ha
Qualibra:	10 L/ha
