

# LAWN MAINTENANCE PROGRAMME

Pin me  
in your  
shed!

## February – March

Apply **Prestige Lawnsand No1 (powder)** @ 70g/m<sup>2</sup>. This Nitrogen and Iron fertiliser helps to control moss and acts as a spring, start up tonic fertiliser.

Apply on a dry day. 24- 48 hours of dry weather required after application, then irrigate.

7-14 days after the above **scarify** the lawn in 2-3 directions and remove debris.

## April

Apply **Prestige 12:0:9 Fine Turf Traditional (granule)** @ 35g/m<sup>2</sup>. A spring / summer fertilizer with Nitrogen and Potash. This fertilizer will feed for approx. 6 weeks. Irrigate after application.

Apply **Bar Extreme Grass Seed** @ 25g/m<sup>2</sup> to lawn to help get good grass coverage. Bar Extreme will give you good hard wearing lawn with quick recovery. Keep seed/soil moist to aid germination.

## June – July

Apply **Weedol Lawn Weed Killer** or (for professional users only) **Barclay Holster XL Selective Weed Killer** if needed (Always read the label - use pesticides safely.)

Must not be applied within 8 weeks of seeding as will kill young grass

Do not spray with 1 meter of your pond / stream as this product is toxic to aquatic organisms

Apply **Prestige Fine Turf Longevity 14:2:6**, slow release fertiliser at 35g/m<sup>2</sup>. This Nitrogen, phosphate and potash fertilizer is slow release and will feed for approx. 8 weeks. Irrigate after application.

## September - October

Ideally lightly scarify and over seed and weak or bare areas.

Apply **Prestige Fine Turf All Season 6:6:12** fertiliser @ 35g/m<sup>2</sup>. An excellent autumn winter fertilizer. This product can be applied every 6-8 weeks during the winter if required and subject to weather conditions allowing. Irrigate after application.

Apply **Weedol Lawn Weed Killer** or (for professional users only) **Barclay Holster XL Selective Weed Killer** if needed (Always read the label - use pesticides safely.)

## Notes

Aeration during the winter months will aid drainage and root growth. As with all of our recommendations the application dates are approx. and as such are subject to the weather conditions that prevail at the time.
