A broad and reliable mixture that contains annuals, perennials and biennials. Each wild flower species contained in the mixture is featured on the Royal Horticultural Society 'Perfect for Pollinators' list. Annual species will provide instant results by flowering in the first year.

### Grass Accompaniment

When choosing 80:20 Grass:Wildflowers, the mixture contains a rich blend of grasses, formulated to compliment the wildflower species. The grass blend contains slow growing species which will not compete against the slower growing wildflowers. Some of the grasses included in the mixtures are quite rare, such as Meadow Foxtail and Sweet Vernal. Soil type specific mixtures also contain grass species that are indicative of that particular habitat, such as Wavy Hairgrass in the acid soils mixture and Wood Meadow Grass in the woodland edge mixture.

### Grass Accompaniment

Slender Creeping Red Fescue	24%
Hard Fescue	24%
Crested Dogstail	12.8%
Smooth Stalked Meadow Grass	8%
Small Leaf Timothy	4%
Browntop Bent	4%
