ORGANIC Liquid Seaweed

All purpose source of organic nutrients

Bigger crops of tastier fruit & veg

Healthier plants - more resilient to disease

ORGANIC

Liquid Seaweed

A concentrated Liquid Seaweed Extract for healthy growth of plants, flowers and vegetables. Regular use will help plants withstand environmental stress, pest and disease attack. Use as a liquid root drench or foliar spray on flowers, fruit, vegetables, shrubs and trees.

DIRECTIONS FOR USE

Shake before use. Measure the required amount of Liquid Seaweed, add to water and stir well. Apply using watering can, fine sprayer or hose-end dilutor. Liquid Seaweed may be mixed with liquid or soluble feeds.

Usage	Dilution	Treatment
Propagating / Transplanting	1 capful in 8 litres of water	Apply as a root drench at each watering or drench rootball in solution before planting out
Growing on / Mature plants	1 capful in 4 litres of water	Apply as a root drench or foliar spray, thoroughly wetting leaves, every 7 to 10 days during the growing season
Fruit crops / Tomatoes	1 capful in 4 litres of water	Spray before and during flowering to improve fruit set

Shake well before use. Store away from direct sunlight between 0 and 30°C
