

A traditional blended compound fertiliser that offers all three major nutrients in adequate proportions to encourage strong, healthy vigorous growth.

1 Application rate 35g/m².

2 Nutrient inputs at 35g/m²: 70kg/ha Nitrogen / 35kg/ha Phosphorus / 35kg/ha Potassium.

3 Blended compound 2-4mm granular.

4 If no rainfall within 24 hours then product will need to be irrigated in.

5 Avoid applications in drought, frost or extreme heat.

6 Do not mow for 3-4 days following application.

7 Suggested spreader settings:

Accupro = Cone 6, Gate opening M applied in TWO directions gives a total of 35g/m².

Ev-N-Spred = Gate opening 12 applied in TWO directions gives a total of 35g/m².

(Fertilisers applied in two directions gives a far more uniformed coverage).

Nitrogen source: 11.9% Ammoniacal / 8.1% Nitric
