# Product Information

# Greenmaster® Liquid

Effect Iron 6.9Fe

# Brand description

Greenmaster Liquids are a premium liquid fertilizer with TMax technology for enhanced foliar and root nutrient uptake.

# **Product advantages**

- 1. For use throughout the growing season.
- 2. Very quick green-up within 3 hours.
- 3. Provides true green-up from within the plant for long lasting results lasts up to 6 weeks.
- Hardens turf without excess growth.
- 5. Treat Iron chlorosis.
- 6. No blackening from wheels or footmarks.
- 7. Can be used on acidic soils without further reducing pH.
- 8. Can be used when black layer present.
- 9. Independent trials have shown that when used in an integrated approach with SierraformGT and H<sub>2</sub>Pro wetting agents disease levels are suppressed.
- 10. Ideal tank mix partner for boosting Iron levels.

# Performance\*

Water volume:

Product dispersal: immediate
Turf response: < 24 hours

Longevity: 2-6 weeks (depending on rate)

\* depending on environmental factors

# **Product characteristics**

Pack size (L): 10 & 200L Application Rate: 10-30L/Ha (1-3L/1,000m²)

600-1,000L/Ha

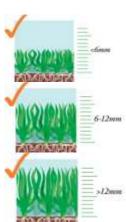

(60-100L/1,000m²)
Pack coverage (10L): 3,333-10,000m²

Pack coverage (10L): 3,333-10,000m<sup>2</sup>
Pack coverage (200L): 66,667-200,000m<sup>2</sup>

Specific Gravity (Kg/L): 1.25

New packaging 2013

Nutrient levels applied (L/ha)

10 L/ha	20 L/ha	30 L/ha
Fe	Fe	Fe
0.86	1.73	2.59

## Directions for use

- To optimise foliar uptake avoid high temperatures and sunny conditions
- Avoid applications during frosty or drought conditions.
- Greenmaster Liquid products are tank-mixable with other products within the range with the exception of Ca-Booster.
- Can be tankmixed with H<sub>2</sub>Pro and H<sub>2</sub>Pro Maximise wetting agents.
- Mix with TurfMark Extra spray pattern indicator to aid spraying, to condition water and minimise spray drift.
- The water volume used to apply Greenmaster Liquids will affect how nutrients are taken up by the plant.
- At low water volumes (600L/Ha) more of the nutrients are taken up by the foliage.
- At high water volumes (1,000L/Ha) the majority of nutrients are taken up by the roots.

## Storage

Store in original container. Keep at temperatures above 0°C. Keep away from food, drink and animal feeding stuffs. In crystalline form, enhances combustibility of other substances. Keep from drying out. Protect from contamination.

# Health & Safety

A Material Safety Data Sheet is available on request.

## Guaranteed analysis

6.90% Iron total (Fe)

Spreader Advice

Spray quality	Si	ze of droplets	Retention on leaf surface	Poten	Potential drift hazard*			Foliar application	Root application	
Very fine		Fine	Good	High					<b>√</b> √	х
Fine			Good						✓	Х
Medium			Good						✓	✓
Coarse			Moderate	U					✓	✓
Very coarse		Coarse	Poor	Very low					Х	44

<sup>\*</sup> Spray drift can be minimized by using TurfMark Extra
