

RYE FAIRWAY

Fairways and tees

- Superior colour during playing season from Barcristalla perennial ryegrass
- High turf density from Barpearl & Barrisse red fescues
- Contains #1-rated strong creeping red fescue Barrisse for Red Thread tolerance

MIXTURE:
50% Perennial ryegrass
25% Strong creeping red fescue
25% Slender creeping red fescue

USAGE:
Overseeding, divoting and construction of medium-fine turf with moderate wear.

FEATURES & BENEFITS:
The “driver” of the mixture is the perennial ryegrass component (50%). *Barcristalla* is a medium-fine ryegrass with excellent wear-tolerance and superior colour.

The red fescue cultivars are superior examples of their species and are ranked highly in BSPB/STRI Turfgrass Seed 2024. Of particular note for fairway applications is their outstanding Red Thread tolerance, with *Barrisse* #1-rated and *Barpearl* #3.

Specifications

Sowing rate	25-35g m ²
Oversowing rate	10-25g per m ²
Sowing depth	5-10mm < thatch
Mowing height	down to 10mm
Pack size	20kg

Composition

Golf

Greenkeepers, Course Managers and Golf Course Superintendents rely on the Barenbrug Sport grass seed range designed for golf courses.
