Floral Carpet

Lower growing annuals to recreate a summer meadow

Floral Carpet

Lower growing seasonal annuals mixture, designed to create a robust and attractive display in areas where final growing height is of paramount importance. This is particularly relevant when sowing near visibility splays and sight lines on road junctions. This lower growing mixture will provide rich blooms throughout the season, perfect for enhancing any street scene. Quick to establish with a long flowering period from eight weeks after sowing up until the first frosts.
