4%	0.8%	Wild Carrot
10%	2%	Yellow Rattle
2%	0.4%	Yarrow

Grass Accompaniment

When choosing 80:20 Grass:Wildflowers, the mixture contains a rich blend of grasses, formulated to compliment the wildflower species. The grass blend contains slow growing species which will not compete against the slower growing wildflowers. Some of the grasses included in the mixtures are quite rare, such as Meadow Foxtail and Sweet Vernal. Soil type specific mixtures also contain grass species that are indicative of that particular habitat, such Wavy Hairgrass in the acid soils mixture and Wood Meadow Grass in the woodland edge mixture.

Slender Creeping Red Fescue	24%
Hard Fescue	24%
Crested Dogstail	12.8%
Smooth Stalked Meadow Grass	8%
Browntop Bent	4%
Small Leaf Timothy	4%
Sweet Vernal	1.6%
Meadow Foxtail	1.6%

Sowing time

Spring: March to May

Summer: June to July, avoiding excessively hot and dry conditions

Late summer/autumn: August to October

Specifications

Sowing rate - 100% 2g/ m²

Sowing rate - 80:20 5g/ m²
