

Prestige Super Irrigation Tablets

Specially formulated for use in storage tanks and irrigation systems to improve water penetration into the turf.

Timing

Use one 3Kg tablet per 2500Ltr irrigation tank to treat approximately 1 hectare. Re-apply every 2-3 weeks during summer.

Application

Place the Irrigation wetting agent tablet directly into the irrigation water tank, where it will completely dissolve within 6 hours.

Pack Coverage

Each tablet will treat approximately 1 Ha, coverage is given as a guide as it is affected by water temperatures, flow rates and tank size.

Precautions

Wear protective gloves/protective clothing/eye protection/face protection. **If in Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **If on skin:** wash with plenty of soap and water. Keep in original container, tightly closed in a safe place.
