- Annual
- Perennial**
- Annual &
- Native**
- Non-Native

Ideal for smaller areas along roadsides where restricting visibility may be an issue. The wild flower species used in this mixture will grow to approximately knee height.

- Contains 16 wildflower species
- Feature species: Rough Hawkbit, Forget Me Not, Bladder Campion, Betony

Grass Accompaniment

When choosing 80:20 Grass:Wildflowers, the mixture contains a rich blend of grasses, formulated to compliment the wildflower species. The grass blend contains slow growing species which will not compete against the slower growing wildflowers. Some of the grasses included in the mixtures are quite rare, such as Meadow Foxtail and Sweet Vernal. Soil type specific mixtures also contain grass species that are indicative of that particular habitat, such as Wavy Hairgrass in the acid soils mixture and Wood Meadow Grass in the woodland edge mixture.

Slender Creeping Red Fescue	24%
Hard Fescue	24%
Crested Dogstail	12.8%
Smooth Stalked Meadow Grass	8%
Browntop Bent	4%
Small Leaf Timothy	4%
