

Lawn Clear²

MAPP 15195

Fast acting and powerful

Kills clovers, buttercup,
dandelion, daisy &
plantains

**KILLS
WEEDS
NOT
GRASS**

USE PESTICIDES SAFELY / READ THE LABEL

Ready To Use soluble concentrate
containing 0.26 g/l clopyralid,
1.13 g/l 2,4-D and 1.31 g/l MCPA

FOR USE ONLY AS A HOME GARDEN WEEDKILLER

A selective weedkiller for control of
many common broad-leaved weeds in lawns

INSTRUCTIONS FOR USE

When to use: Kills many common broad-leaved weeds including plantain, creeping buttercup, white clover, common dandelion and daisy.

Apply once a year between April and October when the soil is moist and weeds are leafy and actively growing.

Do not apply in windy weather. Take extreme care to avoid drift onto crops and non-target plants outside the target area. Keep spray off cultivated plants and away from ponds and watercourses.

Where to use: Kills weeds present at the time of treatment, but does not prevent weeds from germinating. A second application, of another product, may be required after 6-8 weeks to kill stubborn weeds like buttercup and any weeds that may have germinated later. Test for turf safety on a small area of turf before using over a wide area.

Do not mow for 3 days before and 3 days after treatment. Do not spray lawns which are less than one year old. Allow at least six weeks between treatment and overseeding established turf.

Do not treat during drought, freezing conditions or in periods of prolonged cold weather.

Land treated with this product should not be sown or planted with broad-leaved plants, for a period of 6 months after application.

How to use: Shake well before use. Adjust the nozzle to spray and hold approximately 30 cm above the target weed, pump the trigger firmly to thoroughly cover weeds without run-off. Avoid production of a fine spray that can drift onto neighbouring plants.

After treatment, leave the clippings from the first mowing on the lawn. The next three mowings should be composted well, for at least 9 months, before being used as a mulch. Do not dispose of the grass clippings via council composting schemes.

SAFETY INSTRUCTIONS

Protection during/in use

WASH HANDS AND EXPOSED SKIN AFTER USE

Environmental Protection

Do not empty into drains • Do not contaminate water with the product or its container

Direct away from ponds and other surface water bodies

Storage and Disposal

KEEP OUT OF REACH OF CHILDREN AND PETS

• KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed in a safe place • Dispose of empty container in the dustbin • Dispose of unused product in its container at a household waste site (civic amenity site). Contact your local council (local authority) for details.
