

Extreme

Tees, fairways

EXTREME is a blend of perennial ryegrasses for use in areas of medium-fine turf that demand a combination of tolerance to close-mowing and high wear. Golf tees & fairways are perfect examples of high-wear areas where this grass seed mix is at home.

Barsignum is an elite variety for fineness of leaf and visual merit. It is ranked #4 on tables L1 and G4 in BSPB/STRI Turfgrass Seed 2021.

Europitch (45%) and *Baradona* (20%) are outstanding all-round ryegrasses for wear tolerance, shoot density, and aesthetics. *Baradona* is the only variety with Mean Scores in of 7.5 or greater on both L1 and S1 tables and *Europitch* has the highest Visual Merit score of available cultivars in S1.

If fineness of leaf and/or tolerance to very close mowing are the driving factors in product selection, **ULTRAFINE** is recommended as a possible alternative.

EXTREME

Usage:	Overseeding, divoting and / or construction of medium-fine turf with intensive wear; tees & fairways	
Species Formulation:	100% Perennial ryegrass	
Mixture Formulation:	45% EUROPITCH	Perennial ryegrass
	25% BARSIGNUM	Perennial ryegrass
	20% BARADONA	Perennial ryegrass
	10% EUROCORDUS	Perennial ryegrass

How to use it

Sowing rate:	25-50g per m ²
Oversowing rate:	20-30g per m ²
Sowing depth:	10-15mm below thatch
Mowing height:	Down to 5mm
