

Ultrafine

Golf greens, surrounds, tees, fairways, walk-offs, bowling greens

ULTRAFINE is a blend of perennial ryegrasses for use in areas of fine turf that demand tolerance to close-mowing and high wear with exceptional fineness of leaf. Golf green surrounds, pinch-points, walk-offs and tennis courts are perfect examples of where this grass seed mix comes into its own.

Barolympic is the stand-out cultivar ryegrass for summer sports use. It is ranked with a score of 8.7 in Table G4 of BSPB Turfgrass Seed 2021, the highest Mean score in the entire publication, and more than a full point clear of its nearest rival in G4! See Table 1.

Barprimum is an exciting new cultivar from Barenbrug's breeding station in France. It forms a large part of the Sustainable Grass Technology (SGT) concept due to its independently proven drought tolerance, Nitrogen-use efficiency, and disease resistance.

Barsignum is another excellent ryegrass from Barenbrug's European Turf breeding programme, ranked #4 in BSPB/STRI Tables L1 and G4.

ULTRAFINE	
Usage:	Overseeding and / or construction of fine turf with intense wear; greens, surrounds, collars, pinch-points, tennis courts
Species Formulation:	100% Perennial ryegrass
Mixture Formulation:	50% BAROLYMPIC Perennial ryegrass
	30% BARPRIMUM Perennial ryegrass
	20% BARSIGNUM Perennial ryegrass

How to use it	
Sowing rate:	25-50g per m ²
Oversowing rate:	20-30g per m ²
Sowing depth:	10-15mm below thatch
Mowing height:	Down to 4mm

Cultivar	Shoot Density	Visual Merit	Mean
<i>BAROLYMPIC</i>	8.6	8.8	8.7
<i>Clementine</i>	7.7	7.6	7.6
<i>Cabrio</i>	7.3	7.5	7.4
<i>BARSIGNUM</i>	7.2	7.2	7.2
<i>Monroe</i>	6.8	7.2	7.0
