CLEANING PROCEDURE

- (1) Drain tank completely then flush tank, boom and hoses with clean water. Drain again.
- (2) Half-fill tank with clean water and add Super Tank Cleaner at recommended rate, flush through boom and hoses, then allow to stand for 10 mins. with agitation. Drain completely.
- (3) Nozzles and filters must be removed and cleaned separately with Super Tank Cleaner solution. Leave to soak in a bucket containing 250 ml Super Tank Cleaner per 10 litres of water while tank cleaning is in process.
- (4) Any contamination on the outside of the spray equipment should be removed by washing in clean water.

HEALTH AND SAFETY

Irritating to eyes and skin.

Keep locked up and out of the reach of children.

In case of contact with skin or eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable gloves and eye/face protection.

CONDITIONS OF SUPPLY

All goods supplied by us are of the highest grade and we believe them to be suitable but, as we cannot exercise control over their storage, handling, mixing or use or the weather conditions before, during and after application which may affect the performance of the goods, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or our re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling, application or use. Our staff or agents cannot vary these conditions whether or not they supervise or assist in the use of such goods.
