

Enhance R & Enhance R Outfield

Bio-active fertilisers with Amino-Sorb®

EACH GRANULE CONTAINS:

- Low phosphate analysis to meet metabolic needs without encouraging Poa Annua
- Powerful trace element package with enhanced zinc
- Organic content to provide slow release nutrients and boost soil biota activity
- Amino-Sorb® amino acid supplement to help create a stress free environment
- Bacillus subtilis to increase resistance to pathogen attack

Micro granular fertiliser ideal for the fine turf of golf greens, bowling greens and high quality sports pitches. Micro-granules are just 1mm – 2mm in diameter.

Available in three formulations:

Spring & Summer
15+2+8+2MgO+TE
(with Amino-Sorb)

Autumn & Winter
5+2+15+2MgO+TE
(with Amino-Sorb)

Prime (zero phosphate)
5+0+10+4Fe+2MgO+TE
(with Amino-Sorb)

Features homogenous granules 2mm – 4mm in diameter. Ideal for sports pitches, fairways and longer grown amenity turf

Available in two formulations:

Spring & Summer
15+2+6+TE
(with Amino-Sorb)

Autumn & Winter
6+2+10+TE
(with Amino-Sorb)

For the complete, year-round, solution to turf nutrition use Enhance R in association with Enhance F foliar fertilisers.
