

Super Blue Spray Dye

Application Guidelines

The quantity of Super Blue Spray Dye is related to the total volume of water in the spray tank. Use Super Blue Spray Dye at a rate of:
25ml - 62.5ml per 25 litres of spray solution
200ml - 500ml per 200 litres of spray solution

Method of Use

Half fill sprayer tank with clean water.
Start agitation and add required quantity of Super Blue Spray Dye.
Add pesticides.
Fill tank to desired level.

Precautions

Protect from frost.

Do not apply in periods of stress conditions e.g. frost, heavy rainfall, extreme heat and drought.

Health and Safety

When using do not eat, drink or smoke. Do not take by mouth. Avoid skin and eye contact. Keep away from food, drink or animal feed stuffs. Keep locked up and out reach of children. Wash hands and exposed skin before meals and after work. Keep in original container, tightly closed in a safe place. Wash out container thoroughly and dispose of safely. In case of contact with skin or eyes rinse immediately with plenty of water and seek medical advice.

Conditions of Supply

All goods supplied by us are of high grade and we believe them to be suitable but, as we cannot exercise control over their storage, handling, mixing or use, or the weather conditions before, during and after application which may affect the performance of the goods, all conditions and warranties, statutory or otherwise, as to the quality or fitness for any purpose of our goods are excluded and no responsibility will be accepted by us or our re-sellers for any failure in performance, damage or injury whatsoever arising from their storage, handling, application or use. These conditions cannot be varied by our staff or agents whether or not they supervise or assist in the use of such goods.
