

Prestige NuGro Organic 6-2-4 is a flexible foliar feed that can be applied to all grass areas throughout the growing season. With application rates varying between 5 - 20 ltr/ha, it means you can change each application to suit the area requirements, weather pattern, your soil type or the needs of the grass plant to suit. For an even application, apply using either a pedestrian or mechanical boom sprayer. Foliar feeds should not be applied in frosty conditions or full sun.

Analysis:

Total Nitrogen (N)	6.0%
Organic Nitrogen	6.0%
Phosphorous Pentoxide (P₂O₅)	2.0%
Phosphorus (as P)	0.9%
Potassium Oxide (K₂O)	4.0%
Potassium (as K)	3.3%

Application Rate: 5 - 20 ltr/ha

Water Rate: 200 - 600 ltr/ha

Specific Gravity Weight: 1.22

Product pH: 3 - 5

Nutrients Inputs at 10 ltr/ha:

0.73 kg/ha Nitrogen
0.24 kg/ha Phosphorus
0.48 kg/ha Potassium

Prestige NuGro Organic is an approved organic liquid fertiliser derived from refined molasses fermentation products in compliance to EC Regulation 834/2007 and suitable for use in certified Organic Growing Systems.

Derived from: Refined cane molasses fermentation products

Appearance: Brown free-flowing liquid

Prestige NuGro Organic contains approx. 50% total molasses, the actual % can differ slightly due to organic variations.

- Dry matter: 52 - 58%
- Organic matter: 38 - 44%
- Organic carbon: 16 - 20%
- Amino acids: 6 - 8%
