

Super Infiltrate Liquid

KNOW YOUR
PRESTIGE®

Removes water from the playing surface down into the rootzone. Creates air spaces in the top of the profile allowing microbial activity to help break down thatch. Encourages roots to go deeper looking for water. Prevents the development of mosses, algae and slime.

- 1** Application should be 10Ltr per Ha in 500-700Ltr water.
- 2** For best results, apply every 4 weeks starting in September.
- 3** Store between 3°C – 30°C and use within 24 months.
- 4** The surfactants in this product may cause foaming in the spray tank when mixed. Use prestige Super De-Foamer.
- 5** Clean spray tank after application with an approver cleaner such as Prestige Super Tank Cleaner.
