Strawberry Fertiliser

A concentrated high potash liquid feed containing naturally occurring nutrients and essential trace elements. Vitax Organic Strawberry Fertiliser provides a steady supply of natural nutrients, promoting strong healthy growth and increased yields. Ideal for use in strawberry tubs. Also suitable for other soft fruits.

DIRECTIONS FOR USE

Dilute 1 capful in 5 litres of water.

Growing Bags and Tubs

From planting out feed at weekly intervals, 1 litre (2 pints) of diluted feed per bag, gradually increasing to 4.5 litres (1 gallon) per week after first fruits have set. Under cover, increase application frequency to twice a week after the fruits have set.

Outdoor Strawberries

Apply 2 litres (½ gal) of diluted feed per plant every 14 days, rising to once every 7 days after the fruits have set.

Strawberries grown under cover

When fruits have set apply 2 litres (½ gal) of diluted feed per plant every 7 days.

ANALYSIS

Compound Fluid Fertiliser 4:2:6	Fertiliser Containing Organic Material Low Nutrient Fertiliser NPK Compound 4:0.9:5
Total Nitrogen (N) 4%	Total Nitrogen (N) 4%
Phosphorus Pentoxide (P ₂ O ₅) soluble in neutral ammonium citrate and water 2% (0.9% P)	Phosphorus (P) soluble in water 0.9%
Potassium Oxide (K ₂ O) soluble in water 6% (5.0% K)	Phosphorus (P) soluble in mineral acids only 0.9%
UK	Potassium (K) soluble in water 5%
