## EV-N-SPRED BROADCAST SPREADER SETTING MATRIX

These settings are approximate and intended as a guide only. Variations in physical characteristics of material applied, walking speed, and roughness of ground surface may require slightly different spreader settings due to the above conditions. The manufacturer makes no warranty as to the uniformity of coverage actually obtained from settings listed.

An approximate setting may be obtained in the following manner:  
Check the fertiliser bag for settings. If there is a Cyclone setting, add 10 will equal the Ev-N-Spred setting.

### Example

Cyclone setting 4 equals Ev-N-Spred setting 14.
