

Use when an improvement in the efficacy of approved three way selective turf herbicides is needed. Ensures maximum effect at lower dose rates for controlling broadleaved weeds and makes the chemicals more rainfast.

- 1** Application should be 150ml per 100Ltr of Spray solution.
- 2** Put into the spray tank before any pesticides and agitate well.
- 3** Ideal to be tank mixed with wide selection of products, check with your Collier Turf Care Rep.
- 4** Clean spray tank after application with an approver cleaner such as Prestige Super Tank Cleaner.
