

# SAFETY DATA SHEET PRESTIGE ARMOUR +9%Fe + 4.5%MGO + SEAWEED 25KG

SECTION 1: Identification of the	SECTION 1: Identification of the substance/mixture and of the company/undertaking	
1.1. Product identifier		
Product name	PRESTIGE ARMOUR +9%Fe + 4.5%MGO + SEAWEED 25KG	
Product number	13350	
EU REACH registration notes	This Mixture is exempt from REACH registration according to Regulation (EC) No. 1907/2006 (REACH) All raw materials used in the mixture are REACH registered where necessary.	
1.2. Relevant identified uses o	f the substance or mixture and uses advised against	
Identified uses	Fertiliser	
1.3. Details of the supplier of the safety data sheet		
Supplier	PB Kent Alexandra Road South, Immingham Dock Immingham DN40 2QW +44 (0) 1469 563980 +44 (0) 1469 571444 sales@pbkent.co.uk	
1.4. Emergency telephone nur	nber	
Emergency telephone	+44 (0) 1469 563980 Mon - Fri 8am - 5pm	
SECTION 2: Hazards identification		
2.1. Classification of the substance or mixture		
Classification (SI 2019 No. 720	<u>))</u>	
Physical hazards	Not Classified	
Health hazards	Not Classified	
Environmental hazards	Not Classified	
2.2. Label elements		
Hazard statements	EUH208 Contains nickel sulfate. May produce an allergic reaction.	
2.3. Other hazards		
This substance is not classified as PBT or vPvB according to current UK criteria.		

## SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

Revision: 4

iron (II) sulfate		1-5%
CAS number: 7720-78-7	EC number: 231-753-5	
<b>Classification</b> Acute Tox. 4 - H302 Skin Irrit. 2 - H315 Eye Irrit. 2 - H319		
The Full Text for all R-Phrases and Hazard Statements are Displayed in Section 16.		
SECTION 4: First aid measures		

Anhalation       Get medical attention if symptoms are severe or persist.         agestion       Get medical attention if symptoms are severe or persist.         kin contact       Wash skin thoroughly with soap and water or use an approved skin cleanser. Get medical attention if symptoms are severe or persist after washing.         Sye contact       Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. Continue to rinse for at least 10 minutes. Get medical attention if symptoms are severe or persist after washing.         22. Most important symptoms and effects, both acute and delayed       Intervention of any function of any function in thigh concentrations may inritate the respiratory system.         negestion       Dust in high concentrations may inritate the respiratory system.         No harmful effects expected from quantities likely to be ingested by accident.         skin contact       Skin inritation should not occur when used as recommended. Prolonged contact may cause redness, inritation and dry skin. May cause an allergic skin reaction.         State for the doctor       Treat symptomatically.         SECTION 5: Firefighting media       The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.         Insultable extinguishing media       Not applicable.         Sitable extinguishing media       Not exnown.         S3. Advice for firefighters       None known.         S3. Advice for firefighters       Koae area. Cool containers exposed	4.1. Description of first aid measures	
Imagestion       Get medical attention if symptoms are severe or persist.         Skin contact       Wash skin thoroughly with soap and water or use an approved skin cleanser. Get medical attention if symptoms are severe or persist after washing.         Eye contact       Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. Continue to rinse for at least 10 minutes. Get medical attention if symptoms are severe or persist after washing.         Eye contact       Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. Continue to rinse for at least 10 minutes. Get medical attention if symptoms are severe or persist after washing.         Eve contact       Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. Continue to rinse for at least 10 minutes. Get medical attention if symptoms are severe or persist after washing.         Eve contact       Noi harmful effects expected from quantities likely to be ingested by accident.         Skin contact       Skin irritation should not occur when used as recommended. Prolonged contact may cause reduces, irritation and dry skin. May cause an allergic skin reaction.         Eye contact       The product is considered to be a low hazard under normal conditions of use.         E3. Indication of any immediae       Treat symptomatically.         SECTION 5: Firefighting media       The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.         Insultable extinguishing media       None known.	General information	Get medical attention if any discomfort continues.
Skin contact       Wash skin thoroughly with soap and water or use an approved skin cleanser. Get medical attention if symptoms are severe or persist after washing.         Skin contact       Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. Continue to rinse for at least 10 minutes. Get medical attention if symptoms are severe or persist after washing.         key contact       Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue to rinse for at least 10 minutes. Get medical attention if symptoms are severe or persist after washing.         key contact       Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue to rinse for at least 10 minutes. Get medical attention if symptoms are severe or persist after washing.         key contact       No harmful effects expected from quantities likely to be ingested by accident.         skin contact       Skin initiation should not occur when used as recommended. Prolonged contact may cause redness, irritation and dry skin. May cause an allergic skin reaction.         skie contact       The product is considered to be a low hazard under normal conditions of use.         k3. Indication of any immediate medical attention and special treatment needed       Treat symptomatically.         SECTION 5: Firefighting media       The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.         Jnautable extinguishing media       Not applicable.         specific hazards       None known.         <	Inhalation	Get medical attention if symptoms are severe or persist.
attention if symptoms are severe or persist after washing.         Eye contact       Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. Continue to rinse for at least 10 minutes. Get medical attention if symptoms are severe or persist after washing.         2.2. Most important symptoms and effects, both acute and delayed       Dust in high concentrations may irritate the respiratory system.         Indestino       Dust in high concentrations may irritate the respiratory system.         Ingestion       No harmful effects expected from quantities likely to be ingested by accident.         Skin contact       Skin irritation should not occur when used as recommended. Prolonged contact may cause redness, irritation and dry skin. May cause an allergic skin reaction.         Eye contact       The product is considered to be a low hazard under normal conditions of use.         4.3. Indication of any immediate medical attention and special treatment needed         Notes for the doctor       Treat symptomatically.         SECTION 5: Firefighting media       The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.         Insuitable extinguishing media       None known.         3.3. Advice for firefighters       None known.         3.3. Advice for firefighters       Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk.         Bepecial protective equipment appropriate for surrounding materials.	Ingestion	Get medical attention if symptoms are severe or persist.
Continue rinsing. Continue to rinse for at least 10 minutes. Get medical attention if symptoms are severe or persist after washing. A malation Dust in high concentrations may irritate the respiratory system. Ingestion No harmful effects expected from quantities likely to be ingested by accident. Skin contact Skin irritation should not occur when used as recommended. Prolonged contact may cause redness, irritation and dry skin. May cause an allergic skin reaction. Eye contact The product is considered to be a low hazard under normal conditions of use. A Indication of any immediate medical attention and special treatment needed Not as for the doctor Treat symptomatically. ### 6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions	Avoid inhalation of dust and contact with skin and eyes. Use suitable respiratory protection if ventilation is inadequate. Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Take care as floors and other surfaces may become slippery.	
6.2. Environmental precautions	<u>8</u>	
Environmental precautions	The product is slowly degradable. The product is not expected to be hazardous to the environment. Avoid the spillage or runoff entering drains, sewers or watercourses.	
6.3. Methods and material for o	containment and cleaning up	
Methods for cleaning up	Take care as floors and other surfaces may become slippery. Avoid generation and spreading of dust. Collect spillage with a shovel and broom, or similar and reuse, if possible. Containers with collected spillage must be properly labelled with correct contents and hazard symbol. Dispose of contents/container in accordance with national regulations. Do not empty into drains. Collect and dispose of spillage as indicated in Section 13.	
6.4. Reference to other section	IS	
Reference to other sections	For personal protection, see Section 8. For waste disposal, see Section 13.	
SECTION 7: Handling and stor	rage	
7.1. Precautions for safe hand	ing	
Usage precautions	Read label before use. Wear appropriate clothing to prevent repeated or prolonged skin contact. Avoid inhalation of dust and contact with skin and eyes.	
Advice on general occupational hygiene	Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Wash at the end of each work shift and before eating, smoking and using the toilet.	
7.2. Conditions for safe storage	e, including any incompatibilities	
Storage precautions	Store in a dry place. Keep container in a well-ventilated place. Keep out of the reach of children. Store away from incompatible materials (see Section 10).	
7.3. Specific end use(s)		
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.	
SECTION 8: Exposure controls/Personal protection		
8.1. Control parameters Occupational exposure limits		
Gypsum		
Long-term exposure limit (8-hour TWA): WEL 4 mg/m³ respirable dust		
Dolomite		
Long-term exposure limit (8-hour TWA): WEL 10 mg/m³ inhalable dust Long-term exposure limit (8-hour TWA): WEL 4 mg/m³ respirable dust		
iron (II) sulfate		
Long-term exposure limit (8-ho	ur TWA): WEL 1 mg/m³	

WEL = Workplace Exposure Limit.

## 8.2. Exposure controls

#### Protective equipment

μŋ.

Appropriate engineering controls	All handling should only take place in well-ventilated areas.
Eye/face protection	Wear eye protection.
Hand protection	Wear protective gloves.
Other skin and body protection	Wear appropriate clothing to prevent repeated or prolonged skin contact.
Hygiene measures	Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.
Respiratory protection	No specific recommendations.

# SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Appearance	Granules.
Colour	Beige. to Dark brown. or Black.
Odour	Mild.
Odour threshold	Not determined.
рН	Slightly Acidic
Velting point	Not relevant.
nitial boiling point and range	Not relevant.
-lash point	Not relevant.
Evaporation rate	Not relevant.
lammability (solid, gas)	The product is not flammable.
apour pressure	Not relevant.
apour density	Not relevant.
elative density	Not relevant.
olubility(ies)	Not known.
artition coefficient	Not known.
uto-ignition temperature	Not relevant.
ecomposition Temperature	Not relevant.
ïscosity	Not relevant.
Explosive properties	Not relevant.
Dxidising properties	Does not meet the criteria for classification as oxidising.
9.2. Other information	
Other information	No information required.
SECTION 10: Stability and rea	ativity.

SECTION 10: Stability and reactivity

10.1. Reactivity	No tost data apositically related to reactivity available for this product or its ingradiants	
Reactivity	No test data specifically related to reactivity available for this product or its ingredients.	
10.2. Chemical stability Stability	Stable when stored in a dry place.	
10.3. Possibility of hazardous		
Possibility of hazardous	No potentially hazardous reactions known.	
reactions		
10.4. Conditions to avoid		
Conditions to avoid	There are no known conditions that are likely to result in a hazardous situation.	
10.5. Incompatible materials		
Materials to avoid	Water, moisture.	
10.6. Hazardous decomposition	on products	
Hazardous decomposition products	None known.	
SECTION 11: Toxicological in	formation	
11.1. Information on toxicologi	ical effects	
Acute toxicity - oral		
ATE oral (mg/kg)	12,970.17	
<u>Acute toxicity - dermal</u> Notes (dermal LD₅₀)	No specific test data are available.	
Acute toxicity - inhalation Notes (inhalation $LC_{50}$ )	No specific test data are available.	
Serious eye damage/irritation Serious eye damage/irritation	No specific test data are available.	
Respiratory sensitisation Respiratory sensitisation	No specific test data are available.	
Skin sensitisation Skin sensitisation	Contains a small amount of a skin sensitising substance. May cause irritation.	
Germ cell mutagenicity Genotoxicity - in vitro	This substance has no evidence of mutagenic properties.	
Carcinogenicity Carcinogenicity	No specific test data are available.	
Reproductive toxicity Reproductive toxicity - development	Contains a minimal amount of Nickel Sulphate.	
Specific target organ toxicity - single exposure		
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.	
Specific target organ toxicity -		
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure. Contains a minimal amount of Nickel Sulphate - STOT RE 1	

Aspiration hazard Aspiration hazard	Not anticipated to present an aspiration hazard, based on chemical structure.	
Skin contact	May cause an allergic skin reaction.	
SECTION 12: Ecological inform	nation	
12.1. Toxicity		
12.2. Persistence and degrada	bility	
Persistence and degradability	The product is slowly degradable.	
12.3. Bioaccumulative potentia	<u>d</u>	
Partition coefficient	Not known.	
12.4. Mobility in soil		
Mobility	No data available.	
12.5. Results of PBT and vPvB	3 assessment	
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.	
12.6. Other adverse effects		
Other adverse effects	Not relevant.	
SECTION 13: Disposal considerations

Not applicable.

### 14.5. Environmental hazards

# Environmentally hazardous substance/marine pollutant No.

#### 14.6. Special precautions for user

Not applicable.

### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

## **SECTION 15: Regulatory information**

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

#### **SECTION 16: Other information**

Abbreviations and acronyms	ATE: Acute Toxicity Estimate.
used in the safety data sheet	ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.
	ADN: European Agreement concerning the International Carriage of Dangerous Goods by
	Inland Waterways.
	CAS: Chemical Abstracts Service.
	DNEL: Derived No Effect Level.
	GHS: Globally Harmonized System.
	IATA: International Air Transport Association.
	IMDG: International Maritime Dangerous Goods.
	ICAO: Technical Instructions for the Safe Transport of Dangerous Goods by Air.
	LC50: Lethal Concentration to 50 % of a test population.
	LD50: Lethal Dose to 50% of a test population (Median Lethal Dose).
	PBT: Persistent, Bioaccumulative and Toxic substance.
	PNEC: Predicted No Effect Concentration.
	REACH: The REACH etc. (Amendment etc.) (EU Exit) Regulations 2020 No. 1577.
	SVHC: Substances of Very High Concern.
	vPvB: Very Persistent and Very Bioaccumulative.
	cATpE: Converted acute toxicity point estimate.
	LOAEC: Lowest Observed Adverse Effect Concentration.
	LOAEL: Lowest Observed Adverse Effect Level.
	EC₅₀: 50% of maximal Effective Concentration.
	NOAEL: No Observed Adverse Effect Level.
	NOEC: No Observed Effect Concentration.
	LOEC: Lowest Observed Effect Concentration. DMEL: Derived Minimal Effect Level.
