

# NIPPON

# ANT KILLER POWDER

Contains 0.488% w/w permethrin

## NIPPON ANT KILLER POWDER

Contains 0.488% w/w permethrin

Highly efficient ant and other crawling insect killer • Long lasting – up to 6 months control  
For indoor and outdoor use • Children and pets need not be excluded from treated areas  
Also destroys wasp nests.

### DIRECTIONS FOR USE

Remove cap. Hold container pointing slightly downwards and apply as a fine dust to surfaces. Replace cap after use.

**Ants:** Where possible open up the nests, dust well and tread down. Dust along the ant runs, cracks, crevices and other places. Entrances to nests should be liberally dusted particularly in cases where the ants cannot be disturbed. Where ants are invading premises apply to points of access such as doorsteps, window frames, air-bricks, etc.

**Crawling insects - cockroaches, beetles, earwigs, silverfish, woodlice and other crawling insects:** Apply around cracks and other entry points. Leave powder undisturbed and re-treat as necessary.

**Wasps:** Apply dust liberally into the nest or apply in piles at the nest entrance. Treatment is best carried out in the evening or on dull days when wasp activity is at a minimum. Take care not to disturb colony and do not return to nest until all wasp activity has ceased.

**Note:** Do not use on soft furnishings.

CONTENTS MAY SETTLE AFTER PACKING, SHAKE WELL BEFORE USE

### STATUTORY CONDITIONS RELATING TO USE

FOR USE ONLY AS AN INSECTICIDE • Apply as a crack/crevice treatment at 20g/m<sup>2</sup>.
