Urea nitrogen (Ur-N)	8.2%
Phosphorus Pentoxide (P <sub>2</sub> O <sub>5</sub> )	0%
Potassium Oxide (K <sub>2</sub> O)	5%
Water soluble (K <sub>2</sub> O)	5.0%

Weed and feed single application in spring or summer periods when broad-leaved weeds are present.

### Key points

- Ideal during spring and summer period when broadleaved weeds are present and need controlling in one application.
- Contains selective herbicide for routine and heavy weed control

### Directions for use

- Apply to dry foliage and irrigate after 1-2 days if no rain has fallen.
- Irrigation will aid dispersion and minimize any risk of mower pick-up on close mown surfaces.
- Avoid applications during frosty or drought conditions.
- Delay verti-cutting and/or grooming for 3 days after application to allow the granules to disperse.
- Do not apply to newly sown or turfed areas for 6 months after establishment.
- Avoid contact/drift onto all broadleaved plants outside the target area.
- For best results apply when light showers or heavy dews are expected or irrigate after 2 days.
- Grass should not be cut for 3 days before and at least 4 days after treatment.
- The first 4 mowing after treatment should not be used as a compost or mulch unless composted for 6 months.
- Re-seeding of bare batches should not be carried out until 8 weeks after treatments.
- Avoid walking on treated areas until it has rained or irrigation has been applied.
- Do not apply more than 3 applications per year.

### Characteristics

#### Granule size

0.5-2.5mm

#### Pack size

25 kg

#### Application rate

35 g/m<sup>2</sup>

#### Pack coverage

714m<sup>2</sup>

#### Longevity

6 weeks
