

**Ranger-Pro<sup>®</sup>**

The **new** and **improved**  
**fast-acting biocide.**

Researched, formulated and produced in house by ICL

## Ranger-Pro is a professional biocide for use on external hard surfaces.

The new and improved formulation contains wetters and spreaders to help improve surface coverage, as well as broader spectrum biocidal qualities.

### Key points

- 99.9% effective against bacteria, yeasts and viruses\*
- Cleans and removes algae, slimes and lichens
- Reduces the risk of slippery surfaces
- Fast-acting - results can be seen within 48 hours
- Long-lasting effect
- Economical to use

### Areas of use

On external hard surfaces, including; roofs, driveways, pavements, concrete, around buildings and on artificial sports surfaces such as tennis courts to control moulds, fungi and algae.

### Recommended Period of Use (months)

### Characteristics and application information

<b>Application rate:</b>	Normal use: 10L in 200L of water will cover up to 1,000m <sup>2</sup> Light use: 10L in 400L of water will cover up to 2,000m <sup>2</sup> Disinfectant use: 10 – 20L in 400L of water will cover up to 10,000m <sup>2</sup>
<b>Pack size:</b>	5 litres
<b>HSE:</b>	10839
<b>PCS:</b>	101105
<b>Contains:</b>	Didecyldimethyl-ammonium chloride 3.75% & Quaternary ammonium compounds, benzyl-C12-16-alkyldimethyl, chlorides 7.5%

## Disinfection of artificial pitches and hard surfaces

Ranger-Pro has been independently proven to meet British (BS) and European (EN) regulatory standards for efficacy against viruses (EN BS 14476), bacteria (EN BS 1276) and yeasts (EN BS 1650) at the application concentration. The product is effective against all enveloped viruses including all coronaviruses such as Covid-19.

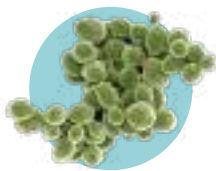

**\*Ranger-Pro is independently proven to kill:**

### Bacteria

(EN 1276)

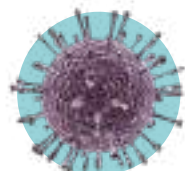

- Staphylococcus aureus
- Enterococcus hirae
- Pseudomonas aeruginosa
- Escherichia coli

### Yeasts

(EN 1650)

- Candida Albicans

### Viruses

(EN)

- Vaccinia virus
